Dear Chairman,

The new IUGS Executive Committee, elected during the last International Geological Congress (Oslo, August 2008), send its best greetings to all officers and members of the IUGS National Committee of Serbia.

The IUGS EC also wishes to inform you that it intends, during the next four years, to improve interaction with your National Committee, as well as with all other bodies and organizations working, inside and outside our Union, in order to address as efficiently as possible all earth science issues of relevance to society.

As it is of utmost importance to promote the integration of the geological sciences and to develop multilateral cooperation between the state-members of the IUGS, the EC will do its best to increase a productive exchange among the member countries.

In this regard we expect that the National Committee of Serbia will continue its active and creative work to enrich the international geological community.

We assure you that in due time you will receive our concrete proposals. Meanwhile, please feel free to contact us with regard to any initiative you could have in relation to this or other matters of significance for the world geological sciences.

With our best wishes to you and all members of the National Committee and geological community of Serbia.

Sincerely,

Prof. Alberto Riccardi  
IUGS President

**President:**

Prof. Alberto C. Riccardi  
Facultad de Ciencias Naturales y Museo  
Universidad Nacional de la Plata  
Paseo del Bosque s/n  
1900 La Plata, ARGENTINA
